Boater Safety Tip #3 and #4

SAFE SAILING

Sonar, Radar, Depth Finders Technology has come a long way in making boating safer. (We assure you that you will be safe while sailing our seas. If you're the paranoid type, bring a life jacket). For the landlubber, cell phones have become a lifeline. Please use discretion when using cell phones at your table. This is not your living room, and not everyone is impressed by your supposed importance.

CHART YOUR COURSE

Don't hesitate to question ingredients or preparation of menu items if unclear. People who order a dish with "Gorgonzola" in the description, then refuse it at the table because they are allergic to bleu cheese make us sea sick. Don't always assume you will be given a free replacement. That's for the Captain to decide.
